**FOR RELEASE ON NOVEMBER 1, 2016**

## **Av8 MRO Hits Milestone With Three Week Turn Time For Hawker Landing Gear Overhaul**

**Houston, TX, November 1, 2016** - Av8 MRO, specialists in the overhaul and repair of Hawker landing gear, is proud to announce they have achieved a three week turn time milestone for Hawker landing gear overhaul.

This three week turn time is the result of Av8 MRO's extensive spare inventory of components as well as their in-house, FAA-approved cadmium plating and Non-Destructive Testing (NDT) capabilities. This turn time reduction has no extra cost to customers, but is dependent on current shop capacity. Call for details.

"We are pleased to be able to offer the fastest turnaround time for Hawker landing gear overhaul. Implementing cadmium plating and NDT capabilities in-house allows us to get you back in the air 2-3 weeks sooner than standard industry turn times," says Yoel Arnoni, Av8 MRO Principal.

Conveniently located in Houston, TX, Av8 MRO is an FAA and EASA-Approved Repair Station with in-house capabilities to repair and overhaul all series of Hawker landing gear and major component parts. Specializing in the overhaul and repair of Hawker landing gear, Av8 MRO has the FAA Repair Specification Approval to make replacement parts, and to date, has approval for almost 400 parts for the Hawker landing gear.

Av8 MRO also offers multiple FAA-approved component repairs that can save most major components from having to be replaced. To learn more or to schedule service, please call 713-589-2668 or visit [av8mro.com](http://av8mro.com).
